

9th South East European Orienteering Championships

BULLETIN 2

21st-25th
august 2019

Republic of Moldova

Mihail Popovciuc
1941-2018

Every human life comes to an end eventually. For how long will each of us put his mark on the Earth? Will living people remember us?

The South East European Orienteering Championship is dedicated to Mihail Popovciuc, to honor his name and his memory!

Mihail Popovciuc was fond of hiking, participated in various competitions in tourism and orienteering, was the head of the orientation section of the factory

"Microwire". member of the Council of Moldovan Orienteering Federation. Our young team of orienteers really lack his balanced and thorough approach to solving problems, his scrupulousness, his patience and skill.

The location of the South East European Orienteering Championship was chosen by him, actively participated along with V. Kiryanov (a top-class map drawer) in preparing materials that made it possible in a very short time to create a map, which we will use for this competition. It can be said with complete confidence that he completed half of the work on the preparation of the SEEOC.

Unfortunately, fate decreed that Mihail Popovciuc not to be with us now. But his work, the maps, the training books, his love for orienteering and the belief that we will have good competitions remained. We are very grateful for everything this wonderful man contributed to this sport and our country.
